SAUNA E SANARIUM "KLAFS"

Your room features a private sauna/sanarium for your exclusive use — the perfect space to relax and unwind.
The main difference between a sanarium and a traditional Klafs sauna lies in the temperature, humidity, and the overall experience. A Finnish sauna offers a hot, dry environment, while a sanarium combines the elements of a sauna and a steam bath, providing a gentler heat with higher humidity.
To ensure proper use, please follow the instructions below or contact reception for assistance.
How to Use the Sauna/Sanarium
Power On:
Press the "Power" button located on the left side of the control panel. This will activate the display.
Program Selection:
Choose one of the recommended programs according to your preferences.
Before Use:
We recommend showering before entering the sauna. Dry off completely and place a towel on the bench before sitting or lying down.
After Use:
Turn off the sauna using the control panel. Allow it to cool down before fully closing the door.
Safety Guidelines

- Do not use the sauna if you have health concerns or medical conditions.
- Do not bring flammable items or liquids into the sauna.
- For any questions or further assistance, please contact reception.

We're delighted to have you as our guest. If there's anything you need to make your stay more comfortable, please don't hesitate to contact us.
